Q04	Please enter your daily steps (Count).	Count	Daily	Connected device
Q05	Please enter your nt-probnp (pg/mL).	pg/mL	Weeks 0,6,12	Site laboratory

Example messaging behavior

A participant in consent_pending status receives the approved eConsent workflow. Once enrolled/active, the messaging service sends only questions that are due for that participant and study. Missing responses can trigger reminders, while predefined study rules can create staff-review alerts.
